Dear Friends,

We are asking for your support to help reach our goal of providing hands-on science and technology education to students throughout the Stanislaus County area. The program is designed to teach and mentor students in the art, science, and teamwork of robotics including designing, programming, and building the robots. We are raising money to purchase parts for our robot and to send our team to competitions through FIRST Robotics. We have 65+ students from 4 area high schools on our competitive after-school team and reach hundreds of area students through outreach efforts.

We are hosting a Spaghetti Dinner and Silent Auction Fundraiser on March 1, 2024, and are expecting over 700 people.

- We have multiple sponsorship levels and we will promote your business through our website, social media channels, and on event and uniform signage, depending on the sponsorship level. You can find all of the details at www.beyerrobotics.org/spaghetti
- We are seeking items for our silent auction. A donation from you would help us on our way toward our goal of raising \$15,000 for our program. We are collecting gift baskets, food or service gift certificates, attraction tickets, or any item that we could add to our themed gift baskets.

All proceeds from this fundraiser go directly to the robotics program and the students. Your donation is tax-deductible. Thank you for supporting Beyer Patriot Robotics!
